Work: Ethiopia, Addis Ababa, Wollo Sefer China Street, 1000 Addis Ababa (Ethiopia)

ABOUT ME

Computer Science graduate and Software Engineer with professional experience spanning software development, digital forensics, and cybersecurity. Currently developing digital forensic tools and supporting cybercrime investigations as an Application Software Developer at INSA, Proficient in **Python, Java, C++, SQL, and cloud technologies**, with a focus on **Artificial Intelligence, Data Science, and Machine Learning**. Seeking to deepen this expertise through master's studies in AI, Cybersecurity, and emerging technologies.

EDUCATION AND TRAINING

Bachelor of Science in Computer Science

Assosa University [2021/07/01 – 2024/07/01]

City: Assosa | **Country:** Ethiopia | **Website:** www.asu.edu.et | **Field(s) of study:** Computer Science

Strong foundation in software engineering, algorithms, databases, software architecture, web technologies, and mobile application development. Built practical experience in system design, full-stack development, database management, and collaborative software engineering.

WORK EXPERIENCE

Remote – Aarhus, Denmark

Mobile application developer

[2025/09/12 – Current]

- Leading the development of a Flutter-based mobile application for AI-powered mood tracking and mental health support.
- Integrated AI-driven insights and personalized recommendations to improve user engagement and experience.
- Collaborated with international AI and backend teams to build scalable, secure, and user-centered features.
- Contributed to global deployment and ongoing enhancement of the application.

Network and System Administrator (INSA) – Addis Ababa, Ethiopia

Application Software Developer

[2025/02/25 – Current]

- Designed, developed, and maintained secure web applications and internal systems supporting digital forensic operations.
- Designed and managed SQL databases for digital forensic applications, ensuring efficient data storage and retrieval.
- Developed and enhanced cybersecurity and digital forensic tools to support cybercrime investigations.
- Collaborated with cross-functional teams throughout the software development lifecycle, including system design, testing, deployment, and maintenance
- Maintained and enhanced existing web platforms by implementing new features, resolving issues, and optimizing system performance

Network and System Administrator

[2023/02/14 – 2024/06/14]

- Installed and maintained network infrastructure and computer systems to ensure secure and reliable institutional operations.
- Configured and managed routers, network services, and security settings to maintain stable connectivity and performance.
- Provided technical troubleshooting, system support, and incident resolution to ensure continuous operations.
- Supported cybersecurity initiatives, including system hardening and secure configuration practices.
- Contributed to improvements in monitoring and operational efficiency through automation-related enhancements.

SKILLS

Programing Languages

Java / Python / JavaScript / Dart

Mobile Development

Flutter (Cross-platform)

Version Control

Git / GitHub/ GitLab

Web Development

React / Vue / HTML/CSS / Full-stack Web Development

Cloud & DevOps

Docker, Linux, AWS, Google Cloud

AI & Data

Machine Learning Integration / Data Analysis / Tensorflow / Scikit-learn / Data Engineering

Cyber Crime Investigation

Digital Forensics, Reverse Engineering, Penetration Testing

Databases

PostgreSQL, MySQL

LANGUAGE SKILLS

Mother tongue(s): Amharic

Other language(s):

English

LISTENING C1 **READING** C2 **WRITING** C1

SPOKEN PRODUCTION C1 **SPOKEN INTERACTION** C1

VOLUNTEERING

[2021/12/20 – 2024/07/01] Assosa ,Ethiopia

Assosa University Peace Forum

- Served in a leadership role coordinating youth-focused peace initiatives
- Organizing and facilitating meetings that promoted dialogue and conflict resolution.
- Provided tutorials and mentorship to peers while contributing to stronger community engagement and social cohesion.

CERTIFICATIONS

[Florida University Southeast (FUSE), 2026/06/25]

Foundations of Artificial Intelligence 6-week online training program covering the fundamentals of artificial intelligence.

[Udacity, 2025/07/09]

Data Analysis Fundamentals Data Analysis Fundamentals Nanodegree

[Udacity, 2025/04/30]
